

# Town of Golden Beach, Florida

## COMPREHENSIVE PLAN

**Original Adoption December 6<sup>th</sup>, 1988**  
**EAR-Based Amendments Adopted August 26<sup>th</sup>, 2009**

Prepared by:  
Michael Miller Planning Associates, Inc.  
Consultant Town Planner

# **Town of Golden Beach Comprehensive Plan**

## **TABLE OF CONTENTS**

### **1.0 Introduction**

- 1.1 Purpose
- 1.2 Comprehensive Planning History in the Town
- 1.3 Comprehensive Plan Preparation, Review and Adoption Process
- 1.4 Planning Time Frames

### **2.0 Future Land Use Element**

- 2.1 Introduction
- 2.2 Existing Conditions
  - A. Existing Land Use
  - B. Natural Environment and Other Conditions
- 2.3 Analysis of Existing Conditions and Growth Trends
  - A. Growth Trends
  - B. Economy
  - C. Urban Services
  - D. Analysis
- 2.4 Future Land Use Plan
- 2.5 Goals, Objectives and Policies

### **3.0 Transportation Element**

- 3.1 Introduction
- 3.2 Description of Existing Transportation System
  - A. Roadway System
  - B. Significant Parking Facilities
  - C. Public Transit System
  - D. Significant Bicycle and Pedestrian Ways
  - E. Ports, Airport Facilities, Railways and Inter-Modal Facilities
- 3.3. Existing Functional Classification & Maintenance Responsibilities
- 3.4 Number of Through Lanes for Each Roadway
- 3.5 Major Public Transit Generators and Attractors
- 3.6 Designated Local & Regional Transportation Facilities Critical to the Evacuation of the Coastal Population
- 3.7 Existing Peak Hour, Peak Direction and Level of Service for Roads, Mass Transit Facilities & Corridors/Routes
- 3.8 Transportation Analysis
  - Analysis of Existing Transportation Systems
    - A. Arterial Roads
      - 1. Ocean Drive / SR A1A
    - B. Local Roadways
      - 1. Golden Beach Drive
      - 2. Other Local Streets

- 3.9 Analysis of Average Daily and Peak Hour Trips
- 3.10 Analysis of Modal Split and Vehicle Occupancy Rates
- 3.11 Analysis of Existing Public Transit Facilities
- 3.12 Population Characteristics Including Transportation Disadvantaged Persons
- 3.13 Characteristics of Major Trip Generators and Attractors
- 3.14 Analysis of the Availability of Transportation Facilities and Service to Serve Existing Land Uses
- 3.15 Analysis of the Adequacy of the Existing and Proposed Transportation Systems to Evacuate the Coastal Population Prior to an Impending Natural Disaster
- 3.16 Analysis of Growth Trends, Travel Patterns, Interactions Between Land Use and Transportation Facilities and Compatibility Between Future Land Use and Transportation Elements
- 3.17 Analysis of Existing and Projected Inter-modal Deficiencies and Needs
- 3.18 Analysis of the Projected Transportation Level of Service and System Needs
- 3.19 Analysis of Projects Planned by the Florida Department of Transportation's Adopted Work Program, Metropolitan Planning Organization and the Local Transportation Authority
- 3.20 Analysis of Maintenance of Adopted Level of Service (LOS) Standards
- 3.21 Analysis of Internal Consistency Between Elements
- 3.22 Analysis of Transportation Management Programs Necessary to Promote and Support Public Transportation Systems
- 3.23 Maintenance of Roadways
- 3.24 Future Map Series
- 3.25 Goals, Objectives and Policies
- 3.26 Appendix
  - A. LOS Methodology
  - B. FDOT Tables

#### **4.0 Housing Element**

- 4.1 Introduction
- 4.2 Existing Housing Characteristics
  - a. Housing Inventory
  - b. Substandard Housing
- 4.3 Housing Market
  - a. Existing Home Values
  - b. Home Sale Prices
  - c. Rents
- 4.4 Analysis of Housing Conditions
  - a. Projected Housing Needs
  - b. Requirements for Capital Improvements
- 4.5 Population Characteristics

- 4.6 Population Projections
- 4.7 Affordable Housing Needs
  - a. Cost Burden, General
  - b. Household Income
  - c. Elderly Households
  - d. Size of Households
  - e. Analysis of Standard Units
  - f. Analysis of Means for Providing Group Homes
- 4.8 Goals, Objectives and Policies

## **5.0 Sanitary Sewer, Solid Waster, Stormwater Management, Potable Water and Natural Groundwater Aquifer Recharge Element**

- 5.1 Introduction
  - A. Sanitary Sewer
  - B. Solid Waste
  - C. Stormwater Management
  - D. Potable Water
  - E. Natural Groundwater Recharge
- 5.2 Sanitary Sewer
- 5.3 Solid Waste
  - a. Trash Removal
  - b. Recycling
- 5.4 Stormwater Management
- 5.5 Potable Water
- 5.6 Natural Groundwater Aquifer Recharge
- 5.7 Goals, Objectives and Policies

## **6.0 Coastal Management Element**

- 6.1 Introduction
- 6.2 Existing Conditions
  - A. Assessment of Point Pollution into the Intracoastal Waterway
  - B. Description of the Town's Biological Systems
  - C. Assessment of Coastal Infrastructure
- 6.3 Natural Disaster Planning
- 6.4 Goals, Objectives and Policies

## **7.0 Conservation Element**

- 7.1 Purpose
  - A. Environmental Setting
  - B. Current Situation
  - C. Commercial Valuable Materials and Resources
  - D. Beach and Soil Erosion
    - 1. Beach Erosion
    - 2. Soil Erosion
  - E. Inventory and Analysis
    - A. Water Resources

B. Flora and Fauna

C. Air Quality

- 7.2 Conservation and Recreational Use of Natural Resources
- 7.3 Development Pressures and Pollution
- 7.4 Hazardous Wastes
- 7.5 Potable Water Use
- 7.6 Recommendations for Managing the Natural Environment
- 7.7 Goals, Objectives and Policies

**8.0 Recreation and Open Space Element**

- 8.1 Introduction
- 8.2 Existing Conditions
  - a. Town Facilities
  - b. Regional Facilities
- 8.3 Park and Recreation Needs and Level of Service
  - a. Changing Needs
  - b. Existing Park Acreage and Level of Service Standard
  - c. Future Park Acreage and Level of Service Standard
  - d. Park and Recreation Master Plan
- 8.4 Goals, Objectives and Policies

**9.0 Intergovernmental Coordination Element**

- 9.1 Introduction
- 9.2 Existing Conditions
  - A. Adjacent Municipalities
  - B. County Governments
  - C. Utility Companies
  - D. Regional Agencies
  - E. State Agencies
  - F. Coordinating Mechanisms
- 9.3 Goals, Objectives and Policies

**10.0 Capital Improvement Element**

- 10.1 Introduction
- 10.2 Financial Resources
  - A. General Fund
  - B. Proprietary Funds
  - C. November 2007 General Obligation Bond
- 10.3 Fiscal Assessment
- 10.4 Adequacy of Facilities
- 10.5 Projected Revenues and Operating Costs
- 10.6 Level of Service (LOS) Standards
- 10.7 Capital Improvements Program
- 10.8 Monitoring and Evaluation
- 10.9 Goals, Objectives and Policies

## LIST OF TABLES

Table	Name
2.1	Total Dwelling Units
2.2	Historical and Existing Land Use Acreage 1988 & 2007
2.3	Historical Population changes since 1980
2.4	Population Estimates and Projections
2.5	Future Land Use Acreage
3.1	Existing Functional Classification of Roadways
3.2	Number of Through Lanes
3.3	Capacity Analysis of Existing Roadway System Traffic Volumes
3.4a	Peak Hour and Peak Directional Analysis
3.4b	Existing and Forecasted AADT, 2-Way Peak Hour and Peak Direction Analysis
3.5a	Historical and Forecasted Traffic Counts AADT
3.5b	Existing and Forecasted Traffic Counts (Two-Way Peak Hour)
3.6	Transit Dependency Demographics
4.1	Total Dwelling Units 2007
4.2	Year Structure Built, 2000
4.3	Median Sales Price for Single-Family Homes / Condos 1996-2005
4.4	Monthly Rent Paid by Number of Households, 2000
4.5	Changing Population Characteristics since 1980
4.6	Population Projections 2005-2030
4.7	Households by Cost Burden 2005
4.8	Households by Homeowner / Renter Status and Cost Burden 2005
4.9	Households by Income and Cost Burden 2005
4.10	Elderly Households by Age and Cost Burden 2005
4.11	Households by Size and Cost Burden 2005
5.1	Projected Sanitary Sewer Demand
5.2	Historic Solid Waste Generation
5.3	Projected Solid Waste Generation
5.4	Miami-Dade County Solid Waste Capacity
5.5	Recycling Collection Totals – 2006
5.6	Historic Potable Water Use (City of North Miami Beach)
5.7	Projected Potable Water Demand entire service area
5.8	Projected Potable Water Demand (Golden Beach Only)
7.1	Potable Water Use and Projected Use
8.1	Historical Population Changes Since 1980
10.1	5-Year Projected Revenues
10.2	5-Year Projected Operating Cost
10.3	5-Year Capital Improvements Program (CIP) Schedule
10.4	5-Year CIP Summary by Project Category
10.5	5-Year CIP Summary by Funding Source

**LIST OF MAPS**

<b>Table</b>	<b>Name</b>
2.1	Location Map
2.2	Surrounding Municipality Land Use
2.3	Existing Land Use
2.4	Existing Conditions
2.5	Flood Zone Areas
2.6	Future Land Use
3.1	Existing Roadway System
3.2	Existing Public Transit System
3.3	Existing Bicycle and Pedestrian Ways
3.4	Existing Ports, Airport Facilities, Railways and Intermodal Facilities
3.5	Existing Functional Classification of Roadways
3.6	Existing Number of Through Lanes
3.7	Existing Major Public Transit Trips Generators and Attractors
3.8	Existing Evacuation Routes
3.9	Existing Peak Hour, Peak Directional and Level of Service
3.10	Future Roadway Systems
3.11	Future Public Transit System
3.12	Future Bicycle and Pedestrian Ways
3.13	Future Ports, Airport Facilities, Railways and Intermodal Facilities
3.14	Future Functional Classification of Roadways
3.15	Future Number of Through Lanes
3.16	Future Major Public Transit Trips Generators and Attractors
3.17	Future Evacuation Routes
3.18	Projected Peak Hour, Peak Directional and Level of Service
5.1a	Sanitary Sewer Infrastructure Map – North part of Town
5.1b	Sanitary Sewer Infrastructure Map – South part of Town
5.2	Miami-Dade County Solid Waste Disposal System
5.3	Master Drainage Plan
6.1	Hurricane Evacuation Routes
8.1	Recreation and Open Space
