the working schedule or replacing on very shortly, this meeting since the work of improving the bridges was to begin very shortly, this meeting The Council President, Mr. Joseph R. Missett, stated that the purpose this Special Meeting was to apprise the Contractors who are presently involved constructing new residences on the Islands in the Town Of Golden Beach, walved.

The Council President, Mr. Joseph R. Missett, called on the Commissioner of Public Streets and Lighting, Councilman N.B. Ornitz, who reported that tests are now being made at North Island Bridge for piling by the Contractor engaged to do the Bridge Construction Work and that similar tests are to be conducted at the bridges leading into Centre and South Islands, and that he would like Mr. Ayerst reported that tests for piling would take approximately two days for each bridge, with North Island Bridge being the first, Centre Island bridge the second and South Island Bridge the third. Upon the completion of these tests, work of demolishing the present bridges would begin starting with the bridge leading into North Island, afterwhich piles would be installed at this site; the working time of installing the piling at the North Island bridge to advise those present of the schedule of work of replacing the bridges. would approximately be three weeks. (removed and it would take approximate The last bridge to be removed with would be in approximate work is started on the representative present from the Industrial Construction Company,

of heavy equipment on this job and to this his Foreman, Mr. Paul Burton, wholeheartedly agreed. Mr. M. P. Furman, further stated that he was very his Mr. M. P. Furman, Contractor, stated that his main contractor the bridge leading into South Island conditions surrounding the removal of the bridge leading into South Island as he is now in the process of constructing a very beautiful residence on this Island for Mr. and Mrs. H. E. Kohen who are planning to make this on this Island for Mr. stated that since South Island bridge is not to regard. a bridge is demolished, his company would give every Mr. Ayerst advised the Members satisfied with the working schedule of replacing the by the Representative of the Industrial Construction satisfied with their home. He further stated that since South Island by be removed for at least five or six weeks, this will not large piece work at all as of equipment would have to be by that time he will have little or no of the Council moved over that in Company, Mr. bridges as assistance the waterway after the event that t interfere with no need for the use Mr.Paul Burton, outlined in this Ayerst.

by Councilman N. Council at There being this Meeting upon motion by Councilman Ralph E. Hough, seconded.
B. Ornitz, the meeting adjourned.
