**Subject:** Resolution No. 2476.17 – Variance Request for 495 Ocean Boulevard,  
Golden Beach, FL 33160 (Lot Elevations and Grade)

Item Number:

1

---

### **Recommendation:**

It is recommended that the Town Council allow the applicant the opportunity to seek approval of the variance request presented in Resolution No. 2476.17.

### **Background and History:**

Town Code Section 66-102 Minimum lot and swale elevations; grades; (a) The finished grade of any lot shall not exceed an elevation of 24 inches above the crown of the road adjacent to the lot and in no event shall exceed an elevation of six feet N.G.V.D. except for lots abutting Ocean Boulevard where the minimum elevation shall be 12 inches above the crown of the road, and the maximum elevation shall not exceed an elevation of 11 feet N.G.V.D. Exterior slabs and walkways shall not exceed an elevation of 36 inches above the crown of the road adjacent to the lot.

The applicant is requesting rear yard terrace elevations to be at an elevation not to exceed 13.91' N.G.V.D. when the code requires a maximum height of 11' N.G.V.D.

The Building Regulation Advisory Board met Dec. 13, 2016 and recommended approval of the variance, the motion passed with a Board vote of 4 – 0

No one in attendance spoke in opposition to this item.

**Subject:** Zoning Variance Application  
Single-Family Residence Yard Elevations  
495 Ocean Boulevard  
Lot 20 of Block C  
MMPA Project No.04-0101-0501

*In variance  
Still -

---

**ISSUE**

The applicant, Future Properties, LLC, is requesting a variance from the maximum permitted land elevation for certain yard areas for this oceanfront lot in order to construct a proposed single-family residence. Following is the applicant's current request:

- Variance from Section 66-102(a) to allow portions of the yard areas to be at a maximum elevation of 13.91' NGVD (11.0' NGVD maximum permitted by Code).

**ANALYSIS**

The application form requested variances for (1) side setback dimensions (7.5' requested vs. 10' required), and (2) the height of the rear yard (lot elevation). As the lot width is only 50' the owner requested relief for the side yard setbacks. Town staff has informed MMPA that a variance was previously granted for the side setback dimensions. No action has occurred to date on the lot elevation request. Therefore, this report is limited to only the lot elevation variance request.

As per the Town's request MMPA has completed our review of the above referenced variance application and provide the following comments for consideration:

The survey submitted shows minimal spot elevations in the existing yard areas. MMPA has requested additional existing spot elevations along the lot lines in our building permit comments. The survey appears to show site elevations ranging between approximately 8-feet NGVD (near the street) to 12.5-feet NGVD. The front of the oceanfront lots adjoining Ocean

Boulevard are about equal with the roadway (7'-8') but rise-up over the coastal dune system and then drop down to the ocean. The applicant is proposing to fill in portions of the lot to provide a somewhat level development site. MMPA feels that a more detailed survey and site plan should be submitted showing the existing and proposed grades. The applicant should not be allowed to raise the elevation of the site higher than the existing dune, nor remove the dune system. MMPA notes that previous reports from the Town's Building Official state that FDEP does not allow excavation or disturbance (lowering) of natural topography; therefore, the site would not be permitted by FDEP to comply with the 11.0 NGVD maximum land elevation required by Town Code.

#### **NON-USE VARIANCE JUSTIFICATION**

- 1) *The variance requested is for relief from the provisions of the Town Code.*

The applicant seeks relief from Section 66-102(a) of the Town's Code of Ordinances.

- 2) *Special conditions and circumstances exist which are peculiar to the land or structure involved, and which are not applicable to other lands or structures in the same district.*

The applicant states that special conditions will arise due to reduction in the finished floor elevations. MMPA believes that FDEP will not permit excavation of the existing dune; therefore, the applicant should clarify this with FDEP as soon as possible. MMPA also notes that the existing lot grade is higher than permitted by Town Code in some instances (dune system).

- 3) *The special conditions and circumstances do not result from the actions of the applicant.*

The applicant stated that no special conditions will be produced by this variance. MMPA agrees to the extent that the applicant is not permitted to raise the grade higher than the highest existing elevation.

- 4) *Granting the variance requested will not confer on the applicant any special privilege that is denied by the Zoning Chapter of the Town Code to other lands or structures in the same district.*

The applicant stated that no privileges will be granted to the owner. MMPA agrees to the extent that the applicant is not permitted to raise the grade higher than the highest existing elevation.

- 5) *Literal interpretations of the provisions of the Zoning Chapter of the Town Code would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of zoning regulations and would work unnecessary and undue hardship on the applicant.*

The applicant stated that FDEP will not allow the excavation of the existing fill eastward of the CCCL; however, MMPA notes that the survey shows the existing slab at 12.4 NGVD and the proposed basement slab at 8.0' NGVD. MMPA notes that comments from the Town Building Official and FDEP rules appear to require the lowest habitable floor elevation east of the CCCL at 18.2 feet NGVD. Possibly FDEP would approve a

pre-existing lower floor elevation. MMPA recommends this be addressed with FDEP as soon as possible. MMPA notes that other oceanfront lots in this area have been granted variances to allow the yard areas to be higher than permitted by Code, due to the raised coastal dune system.

- 6) *The variance granted is the minimum variance that will make possible the reasonable use of the land or structure.*

The applicant stated they are requesting the minimum required to make the site viable and maintain the original configuration. Again, MMPA suggests that the applicant not be permitted to raise the grade higher than the highest existing elevation. The survey / plans do not adequately illustrate the existing lot grades. A more detailed survey and site grading plan should be submitted by the applicant.

- 7) *The granting of the variance will be in harmony with the general intent and purpose of the Town Code and the variance will not be injurious to the area involved or otherwise detrimental to the public welfare.*

The applicant stated that the variance requested will be in harmony with the general intent and purpose of the Code. MMPA agrees to the extent that the applicant is not permitted to raise the grade higher than the highest existing elevation.

#### **SUMMARY**

MMPA was requested to review and comment on the requested non-use variance for lot the land elevation. Based on the above analysis we feel the granting of the requested variance would be appropriate, to the extent that the applicant is not permitted to raise the grade higher than the highest existing elevation, in order to allow for a new single-family home to be built similar to the existing home on the property.

It should be noted that the proposed project may be in violation of FDEP requirements and possibly the Town Code. FDEP requires that the all structures east of the Coastal Construction Control Line (CCCL) are required to have the first habitable floor at a minimum elevation of 18.2 feet NGVD for Miami-Dade County. The plans appear to show habitable rooms / bathrooms (despite the notation on the plan) at 8.0' NGVD. If the first habitable floor is permitted by FDEP to be at an elevation of 8.0' NGVD, the Zoning Code requires the building height to be measured from that height. In that instance the building would be 12 feet taller than permitted. Again, FDEP does not typically allow the excavation of the existing dune.

General Notes:

1. All plant material shall be Florida No. 1 or better as given in the current Florida Grades and Standards for Nursery Plants, 2015, Florida Department of Agriculture and Consumer Services.
2. All plant materials shall be subject to inspection and approval by the Landscape Architect at place of growth and upon delivery for conformity to specification.
3. All plants shall be true to species and variety and shall conform to measurements specified. All substitutions shall be submitted to the City and Landscape Architect for final approval.
4. All plants shall be exceptionally heavy, symmetrical, tight knit and so trained in appearance as to be superior to form, branching and symmetry.
5. Contractor shall notify Sunshine 811 (call 811) for locations of existing utility lines 48 hours prior to beginning work. Contractor shall verify location of all utility lines and easements prior to commencing any work. Excavation in the vicinity of underground utilities shall be undertaken with care and by hand, if necessary. The Contractor bears full responsibility for this work and disruption or damage to utilities shall be repaired immediately at no expense to Owner.
6. Grade B+, shredded sterilized Eucalyptus mulch shall be used in all mass planting beds and for individual tree pits. All trees shall have a mulch ring with a depth of 3" and a diameter of 3'-4" around their base. All mulch shall be kept 4" from base of all plant material. Mulch beds shall be a minimum of 12" wider than plants measured from outside edge of foliage.
7. Sod shall be St. Augustine and free of weeds, insects, fungus and disease, laid with alternating and abutting joints.
8. All trees and shrubs shall be backfilled with a suitable planting soil consisting of 50 percent sand and 50 percent approved compost. All plant materials shall be planted with a minimum of 6 to 18 inches of planting soil around the root ball. Refer to planting details. Planting soil to be backfilled into plant pits by washing in. Planting beds shall be free from road, pea, egg or colored rock, building materials, debris, weeds, noxious peats and disease.
9. All sodded areas to have a minimum of 2" of planting soil as described in note #8.
10. All trees shall be warranted by the Contractor and will be healthy and in flourishing condition of active growth one year from date of final acceptance.
11. All shrubs, groundcovers, vines and sod shall be fully warranted for 90 days under same condition as above.
12. All synthetic burlap, synthetic string or cords or wire baskets shall be removed before any trees are planted. All synthetic tape shall be removed from trunks, branches, etc before inspection. The top 1/3 of any natural burlap shall be removed or tucked into the planting hole before trees are backfilled. Planting soil to be backfilled into pits by washing in.
13. All trees, palms and other plants shall be planted with the top of their rootballs no deeper than the final grade surrounding the planting area.
14. In areas where paved surfaces abut sod or mulch, the final level of both surfaces should be even.
15. All planting shall be installed with fertilizer at time of planting.
16. All planting shall be installed in a sound, workmanlike manner and according to good planting procedures. Installation shall include watering, weeding, fertilizing, mulching, selective pruning and removal of refuse and debris on a regular basis so as to present a neat and well kept appearance at all times.
17. All landscape and sod areas shall have an automatic irrigation system installed. Coverage should be 100% with 50% minimum overlap using rust free water to all landscape and sod areas. Spray upon public sidewalks, streets and adjacent properties should be minimized. Sodded areas and shrub/groundcover beds should be on separate irrigation zones when feasible for a more efficient system. Irrigation system shall be installed with a rainswitch device.
18. All landscape and irrigation shall be installed in compliance with all local codes.
19. The plan shall take precedence over the plant list, should there be any discrepancy between the two.

## MEMORANDUM

---

**Date:** January 17, 2017

**To:** Honorable Mayor Glenn Singer &  
Town Council Members

**From:** Alexander Diaz,   
Town Manager

**Subject:** Resolution No. 2477.17 – Variance Request for 263 Ocean Boulevard,  
Golden Beach, FL 33160 (Lot Elevations and Grade)

Item Number:

2

---

### Recommendation:

It is recommended that the Town Council allow the applicant the opportunity to seek approval of the variance request presented in Resolution No. 2477.17

### Background and History:

Town Code Section 66-102 Minimum lot and swale elevations; grades: (a) The finished grade of any lot shall not exceed an elevation of 24 inches above the crown of the road adjacent to the lot and in no event shall exceed an elevation of six feet N.G.V.D. except for lots abutting Ocean Boulevard where the minimum elevation shall be 12 inches above the crown of the road, and the maximum elevation shall not exceed an elevation of 11 feet N.G.V.D

Town Code Section 66-101(a) - House and garage floors. The minimum elevation of the first floor level of residences shall comply with or conform to flood plan criteria and regulatory codes as set forth by Miami-Dade County, the State, and the United States Government including the provisions of the National Flood Insurance Program, the Florida Building Code, this chapter, the Coastal Construction Code, and all other applicable provisions of this Code of Ordinances. The maximum elevation of the first floor level of any residence in the Town above the minimum elevation required by such regulatory codes shall be maintained as follows:

First floor of residences to be constructed on lots in Zone One shall be constructed no higher than two feet above the minimum permitted elevation, as established by the Federal Emergency Management Agency (FEMA), or successor agency, or at the elevation as required by the State Department of Environmental Protection, Bureau of Beaches and Coastal Systems, Successor Agency, if this elevation is higher than the minimum elevation plus two feet.

The applicant is requesting varying site grade elevations throughout the property to be at an elevation not to exceed 13.00' N.G.V.D. when the code requires a maximum height of 11' N.G.V.D. and to allow the lowest finished floor elevation to be at 13.5' NGVD when the code requires the elevations not to exceed 10.0' NGVD.

The Building Regulation Advisory Board met Dec. 13, 2016 and recommended approval of the variance, the motion passed with a Board vote of 4 – 0

No one in attendance spoke in opposition to this item.

TOWN OF GOLDEN BEACH
NOTICE OF PUBLIC HEARING

The Building Regulation Board and the Town Council of the Town of Golden Beach will hold a Public Hearing on the following proposal:

- 2 Variance Request(s)
X New Construction

Relief from Town Code Section 66-102 Minimum lot and swale elevations; grades

(a) The finished grade of any lot shall not exceed an elevation of 24 inches above the crown of the road adjacent to the lot and in no event shall exceed an elevation of six feet N.G.V.D. except for lots abutting Ocean Boulevard where the minimum elevation shall be 12 inches above the crown of the road, and the maximum elevation shall not exceed an elevation of 11 feet N.G.V.D. Exterior slabs and walkways shall not exceed an elevation of 36 inches above the crown of the road adjacent to the lot.

Relief from Town Code Section Section. 66-101(a) - House and garage floors.

The minimum elevation of the first floor level of residences shall comply with or conform to flood plan criteria and regulatory codes as set forth by Miami-Dade County, the State, and the United States Government including the provisions of the National Flood Insurance Program, the Florida Building Code, this chapter, the Coastal Construction Code, and all other applicable provisions of this Code of Ordinances. The maximum elevation of the first floor level of any residence in the Town above the minimum elevation required by such regulatory codes shall be maintained as follows:

First floor of residences to be constructed on lots in Zone One shall be constructed no higher than two feet above the minimum permitted elevation, as established by the Federal Emergency Management Agency (FEMA), or successor agency, or at the elevation as required by the State Department of Environmental Protection, Bureau of Beaches and Coastal Systems, Successor Agency, if this elevation is higher than the minimum elevation plus two feet.

Request is for varying site grade elevations to be at elevations of 12.15' through 13.0' NGVD when the code permits 11.0 feet NGVD and the lowest finished floor elevation to be at 13.5 feet NGVD, when the code contemplates for the finish floor elevations to not exceed 10.0 feet as a means of providing appropriate transitions to adjacent grades and the maximum permitted site elevation of 11.0 feet NGVD.

**TOWN OF GOLDEN BEACH  
COMMUNITY DEVELOPMENT  
MEMORANDUM**

---

**To:** Building Regulatory Advisory Board  
Town of Golden Beach

**From:** Michael J. Miller, AICP   
Consultant Town Planner

**Date:** December 2<sup>nd</sup>, 2016

**Subject:** Zoning Variance Applications  
Single-Family Residence Elevations  
263 Ocean Boulevard  
Lot 36 & S ½ of Lot 37 in Block A  
MMPA Project No.04-0101-0501

---

**ISSUE**

The applicant, Samuel & Michelle Ohev-Zion, is requesting variances from the maximum permitted elevation of finished floors and the maximum permitted elevation for certain yard areas for this oceanfront lot in order to construct a previously approved (not yet permitted) single-family residence. Following is the applicant's current request:

- Variance from Section 66-101(a)(1) to allow the basement level finished floor to be at an elevation of 13.5' NGVD (10.0' NGVD maximum permitted by Code);
- Variance from Section 66-102(a) to allow portions of the yard areas to be at an elevation of 13.0' NGVD (11.0' NGVD maximum permitted by Code).

**ANALYSIS**

As per the Town's request MMPA has completed our review of the above referenced variance application and provide the following comments for consideration:

The survey submitted shows the existing site elevations range between approximately 10-feet NGVD to 13-feet NGVD and the existing finished floor elevation is 13.30' NGVD. The applicant is proposing to fill in portions of the lot to provide a somewhat level development site at 13'-0" NGVD with a finished floor elevation for the home at 13'-6" NGVD. The site will slope down to Ocean Boulevard (+/- 10' NGVD), to the ocean, and to the swales in the side yards that will retain the storm-water on site. MMPA notes that previous reports from the previous Building

Official state that FDEP does not allow excavation or disturbance (lowering) of natural topography; therefore, the site would not be permitted by FDEP to comply with the 11.0 NGVD maximum required by Town Code.

#### NON-USE VARIANCE JUSTIFICATION

- 1) *The variance requested is for relief from the provisions of the Town Code.*

The applicant seeks relief from Sections 66-101(a)(1) and 66-102(a) of the Town's Code of Ordinances.

- 2) *Special conditions and circumstances exist which are peculiar to the land or structure involved, and which are not applicable to other lands or structures in the same district.*

The applicant stated that they cannot remove material from the property and the existing property is higher than permitted by Code. MMPA notes that the survey submitted shows existing slab and grade elevations taller than permitted by Code. The applicant appears to be requesting the minimum elevations required to provide a level lot where the physical improvements are located. Florida Administrative Code (FAC) Section 62B33.005 does not allow for the existing dunes to be excavated.

- 3) *The special conditions and circumstances do not result from the actions of the applicant.*

The applicant stated that the existing grades are a pre-existing condition of the site. MMPA again notes that the survey submitted shows existing slab and grade elevations taller than permitted by Code

- 4) *Granting the variance requested will not confer on the applicant any special privilege that is denied by the Zoning Chapter of the Town Code to other lands or structures in the same district.*

The applicant and MMPA note that other properties have been granted variances by the Town for similar site conditions.

- 5) *Literal interpretations of the provisions of the Zoning Chapter of the Town Code would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of zoning regulations and would work unnecessary and undue hardship on the applicant.*

The applicant stated that material may not be excavated from the site and that the Town Code requires excavation. MMPA notes that the applicant would not be able to build on the site if the variances are not granted.

- 6) *The variance granted is the minimum variance that will make possible the reasonable use of the land or structure.*

The applicant stated they are requesting to maintain the existing grade elevations on the property and are not seeking any additional increase in elevations. MMPA notes that the applicant appears to be requesting the minimum elevations required to provide a level lot.

- 7) *The granting of the variance will be in harmony with the general intent and purpose of the Town Code and the variance will not be injurious to the area involved or otherwise detrimental to the public welfare.*

The applicant stated that the variance requested is to maintain the existing grade elevations on the property. MMPA agrees that the requested variances will allow for a new single-family home with similar elevations as the existing home.

#### **SUMMARY**

MMPA was requested to review and comment on the requested non-use variances for the finished floor and the land elevation. Based on the above analysis we feel the granting of the requested variances would be appropriate to allow for a new single-family home to be built similar to the existing home on the property. If the variances are not granted, the applicant would not be able to construct the previously approved project due to FDEP requirements.

MMPA notes that the project may have been approved in violation of the Town Code and possibly FDEP requirements. FDEP requires that the all structures east of the Coastal Construction Control Line (CCCL) are required to have the first habitable floor at a minimum elevation of 18.2' NGVD for Miami-Dade County. The plans appear to show habitable rooms at 13.5' NGVD (not permitted). To our knowledge only garages and dead storage areas are permitted below the minimum habitable floor elevation. If the first habitable floor is permitted by FDEP to be at an elevation of 13.5' NGVD, the Zoning Code requires the building height to be measured from that height. In that instance the building would be 13.83 feet taller than permitted. MMPA feels the BRAB approval of the home should be reconsidered in light of the above information.

TOWN OF GOLDEN BEACH  
BUILDING REGULATION ADVISORY BOARD  
APPLICATION FOR  
PETITION FOR VARIANCE

Date: SEPTEMBER 07 2016

Fee: \_\_\_\_\_

I, SAMUEL ODEH ZUBA hereby petition the Town of Golden Beach for a variance from the terms of the Town of Golden Beach Code of Ordinances affecting property located at: 203 OCEAN BOULEVARD Folio No. 19-1235-003-0240

As specified in the attached "Application for Building Regulation Advisory Board" and related supporting material.

1. The Variance requested is for relief from the provisions of (list section number(s) of the Town of Golden Beach Code of Ordinances):

SECTION 66-101(A) - GROUND FLOOR ELEVATION

SECTION 66-102(a) - FINISH GRADE ELEVATION

2. In order to recommend the granting of the variance, it must meet all the following criteria (please provide a response to each item):

a. The Variance is in fact a Variance from a zoning regulation as set forth within the Zoning Chapter of the Town Code. SEC 46-102(a) REQUIRES EXCAVATION OF SOIL ON THE PROPERTY TO MEET ALLOWABLE PARAMETERS AS SET FORTH BY THE CODE

b. Special conditions and circumstances exist which are peculiar to the land or structure involved, and which are not applicable to other lands or structures in the same district. PROPERTIES EXIST ON THE CUL CANNOT REMOVE EXCAVATED MATERIAL FROM THE PROPERTY YET EXISTING GRADE IS HIGHER THAN ALLOWED BY CODE SEC 66-102(a)

c. The special conditions and circumstances do not result from the actions of the applicant. EXISTING GRADES ARE HIGHER THAN ALLOWED BY CODE. THIS IS A PRE-EXISTING CONDITION OF THE SITE

d. Granting the Variance requested will not confer on the applicant any special privilege that is denied by the Zoning Chapter of the Town Code to other lands or structures in the same district. OTHER PROPERTIES, S35 AND S35 OCEAN BLVD HAVE BEEN GRANTED A VARIANCE BY TOWN COUNCIL FOR THIS SIMILAR ISSUE.

TOWN OF GOLDEN BEACH  
BUILDING REGULATION ADVISORY BOARD  
PETITION FOR VARIANCE

3. Literal interpretations of the provisions of the Zoning Chapter of the Town Code would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of zoning regulations and would work unnecessary and undue hardship on the applicant. FL TOWNE (2008-05.005 (6)) PREVENTS EXCAVATED MATERIAL FROM BEING REMOVED FROM THE PROPERTY. THE EXCAVATION IS REQUIRED PER - GOLDEN BEACH CODE SEC 102.12(a)
4. The Variance granted is the minimum Variance that will make possible the reasonable use of the land or structure. WE ARE RESPECTFULLY ASKING TO MAINTAIN THE EXISTING GRADE ELEVATIONS ON THE PROPERTY AND DO NOT SEEK ANY ADDITIONAL HEIGHT IN GRADES.
5. The granting of the Variance will be in harmony with the general intent and purpose of the Town Code and the Variance will not be injurious to the area involved or otherwise detrimental to the public welfare. VARIANCES ARE TO MAINTAIN EXISTING GRADES ELEVATIONS ON THE PROPERTY.

Does the Variance being requested comply with all the above listed criteria?  
 Yes  No

6. Our code states that submission of a written statement is invited and encouraged. Has the applicant (petitioner) explained the variance to the owners of the nearest adjacent residences and sought their approval in writing?  Yes  No. APPLICANT OWNS THE PROPERTY TO THE SOUTH.  
Please attach any written letters of no objection to this petition.
7. Is this request related to new construction?  Yes  No
8. Is construction in progress? NO
9. Is this request as a result of a code violation? NO
10. Did this condition exist at the time property was acquired?  Yes  No
11. Is this request sought as a remedy to a case to be heard, or action taken by the Special Magistrate? NO
12. Do you have a building permit?  Yes  No

## MEMORANDUM

---

**Date:** January 17, 2017

**To:** Honorable Mayor Glenn Singer &  
Town Council Members

**From:** Alexander Diaz,   
Town Manager

**Subject:** Resolution No. 2478.17 - Variance Request for 255 Ocean Boulevard,  
Golden Beach, FL 33160 (Lot Elevations and Grade)

Item Number:  
3

---

### Recommendation:

It is recommended that the Town Council allow the applicant the opportunity to seek approval of the variance request presented in Resolution No. 2478.17

### Background and History:

Town Code Section 66-102 Minimum lot and swale elevations; grades; (a) The finished grade of any lot shall not exceed an elevation of 24 inches above the crown of the road adjacent to the lot and in no event shall exceed an elevation of six feet N.G.V.D. except for lots abutting Ocean Boulevard where the minimum elevation shall be 12 inches above the crown of the road, and the maximum elevation shall not exceed an elevation of 11 feet N.G.V.D

Town Code Section 66-101(a) - House and garage floors. The minimum elevation of the first floor level of residences shall comply with or conform to flood plan criteria and regulatory codes as set forth by Miami-Dade County, the State, and the United States Government including the provisions of the National Flood Insurance Program, the Florida Building Code, this chapter, the Coastal Construction Code, and all other applicable provisions of this Code of Ordinances. The maximum elevation of the first floor level of any residence in the Town above the minimum elevation required by such regulatory codes shall be maintained as follows:

First floor of residences to be constructed on lots in Zone One shall be constructed no higher than two feet above the minimum permitted elevation, as established by the Federal Emergency Management Agency (FEMA), or successor agency, or at the elevation as required by the State Department of Environmental Protection, Bureau of Beaches and Coastal Systems, Successor Agency, if this elevation is higher than the minimum elevation plus two feet.

The applicant is requesting varying site grade elevations throughout the property to be at an elevation not to exceed 13.00' N.G.V.D. when the code requires a maximum height of 11' N.G.V.D. and to allow the lowest finished floor elevation to be at 13.5' NGVD when the code requires the elevations not to exceed 10.0' NGVD.

The Building Regulation Advisory Board met Dec. 13, 2016 and recommended approval of the variance, the motion passed with a Board vote of 4 – 0

No one in attendance spoke in opposition to this item.

**Subject:** Zoning Variance Application  
Single-Family Residence Yard Elevations  
255 Ocean Boulevard  
Lots 34 & 35 of Block A  
MMPA Project No.04-0101-0503

---

**ISSUE**

The applicant, Domo Architecture & Design, is requesting a non-use variance from the maximum permitted elevation of finished floors and the maximum permitted land elevation for certain yard areas for this oceanfront lot in order to construct a proposed single-family residence. Following is the applicant's current request:

- Variance from Section 66-101(a)(1) to allow the basement level finished floor to be at an elevation of 13.5' NGVD (10.0' NGVD maximum permitted by Code);
- Variance from Section 66-102(a) to allow portions of the yard areas to be at an elevation of 13.0' NGVD (11.0' NGVD maximum permitted by Code).

**ANALYSIS**

As per the Town's request MMPA has completed our review of the above referenced variance application and provide the following comments for consideration:

The survey submitted shows site elevations ranging between approximately 10-feet NGVD (near the street) to 13.5-feet NGVD and the existing finished floor elevation of the a small existing storage structure which is to remain is 12.5 feet NGVD. The front of the oceanfront lots adjoining Ocean Boulevard are about equal with the roadway (9.8' NGVD) but rise-up over the coastal dune system and then drop down to the ocean. The applicant is proposing to fill in portions of the lot to provide a somewhat level development site at 13.0 NGVD with a finished floor elevation for the home at 13.5' NGVD. The site will slope down to Ocean Boulevard pavement / valley gutter (+/- 10' NGVD), to the ocean, and to the swales in the side yards that will retain the storm-water on site. MMPA notes that previous reports from the Town's Building

---

Official state that FDEP does not allow excavation or disturbance (lowering) of natural topography; therefore, the site would not be permitted by FDEP to comply with the 11.0 NGVD maximum land elevation required by Town Code.

#### NON-USE VARIANCE JUSTIFICATION

- 1) *The variance requested is for relief from the provisions of the Town Code.*

The applicant seeks relief from Sections 66-101(a)(1) and 66-102(a) of the Town's Code of Ordinances.

- 2) *Special conditions and circumstances exist which are peculiar to the land or structure involved, and which are not applicable to other lands or structures in the same district.*

The applicant stated that properties east of the CCCL cannot remove excavated material from the property and that the existing grade is higher than permitted by Town Code. MMPA believes that FDEP will not permit excavation of the existing dune; therefore, the applicant should clarify this with FDEP as soon as possible. MMPA also notes that the existing lot grade is higher than permitted by Town Code in some instances (dune system).

- 3) *The special conditions and circumstances do not result from the actions of the applicant.*

The applicant stated that the existing grades are higher than allowed by the Town Code which are a pre-existing condition of the site. MMPA notes that the elevations shown on the survey submitted is consistent with the applicants' statement.

- 4) *Granting the variance requested will not confer on the applicant any special privilege that is denied by the Zoning Chapter of the Town Code to other lands or structures in the same district.*

The applicant stated that other properties have been granted variances by the Town for similar site issues. MMPA notes that other oceanfront lots in this area have been granted variances to allow the yard areas / finished floor elevations to be higher than permitted by Code, due to the raised coastal dune system.

- 5) *Literal interpretations of the provisions of the Zoning Chapter of the Town Code would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of zoning regulations and would work unnecessary and undue hardship on the applicant.*

The applicant stated that Florida Administrative Code (FAC) Rule 62B33.005(6) prevents excavating material from being removed from the property and that Town Code Sec. 66-102(a) requires excavation. MMPA recommends this be addressed with FDEP as soon as possible. MMPA notes that other oceanfront lots in this area have been granted variances to allow the yard areas / finished floor elevations to be higher than permitted by Code, due to the raised coastal dune system.

- 6) *The variance granted is the minimum variance that will make possible the reasonable use of the land or structure.*

The applicant stated they are requesting to maintain the existing grade elevations on the property and do not seek any additional height. MMPA agrees that it appears the applicant is not requesting to raise the grade higher than existing.

- 7) *The granting of the variance will be in harmony with the general intent and purpose of the Town Code and the variance will not be injurious to the area involved or otherwise detrimental to the public welfare.*

The applicant stated that the variances requested are to maintain the existing grade elevations on the property. MMPA agrees that it appears the applicant is not requesting to raise the grade any higher than existing.

#### **SUMMARY**

MMPA was requested to review and comment on the requested non-use variances for the finished floor and the land elevation. Based on the above analysis we feel the granting of the requested variance would be appropriate to allow for a new single-family home to be built similar to other existing homes and newly constructed homes in the area.

MMPA notes that the proposed project, as designed, may be in violation of FDEP requirements and possibly the Town Code. FDEP requires that the all structures east of the Coastal Construction Control Line (CCCL) are required to have the first habitable floor at a minimum elevation of 18.2 feet NGVD for Miami-Dade County. The plans appear to show habitable rooms / bathrooms at 12.0' to 13.5' NGVD. MMPA believes that only non-habitable areas such as garages and dead storage areas are allowed below the FDEP minimum habitable floor elevation. If the first habitable floor is permitted by FDEP to be at an elevation of 12.0' NGVD, the Zoning Code requires the building height to be measured from that height. In that instance the building would be 16 feet taller than permitted.

# 255 Ocean Boulevard

Plans Dated: November 14<sup>th</sup>, 2016

Received by MMPA: November 23<sup>rd</sup>, 2016

Revised Comments: December 9<sup>th</sup>, 2016

---

- Per Sec. 66-69(8) the maximum building height is 30-feet for this lot (not 27.5 feet as previously stated). Additionally, there appears to be a discrepancy between the original Town plat, the survey (existing site) and the proposed plans for the total site width. The survey shows the measured width at the street slightly different than the plat (1/2-inch discrepancy). As the original plat was completed in 1924, it is assumed that the measurements are not as precise as they are today. The proposed plans should use the site widths shown on the survey (100.04 at the street and ocean).
- MMPA believes that only non-habitable uses are permitted below the 18.2' NGVD requirement of FDEP. This is usually limited to only parking and dead storage areas. MMPA believes that bathrooms / game rooms / screening rooms / studies / etc. are considered habitable space and are not permitted. Applicant should check with the Building Official / FDEP to prevent future issues and prevent further delays.
- The Building Official has referenced and provided a FDEP rule that requires all structures east of the Coastal Construction Control Line (CCCL) to have the first habitable floor at a minimum elevation of 18.2' NGVD for Miami-Dade County. The plans appear to show habitable rooms (as listed above) at 12.0' to 13.5' NGVD. If the first habitable floor is permitted by FDEP to be at an elevation of 12.0' NGVD, the Zoning Code requires the building height to be measured from that height; therefore, the building would be 16' taller than permitted.
- Sheet A01 has the following issues:
  - The proposed pool terrace may be no more than 50% of the width of the home (appears ok) and must be aligned on the principal building's centerline (not in compliance); additionally, show that the depth of the pool terrace is not more than 25% of the width of the building (not in compliance) (Sec. 66-137(a)).
  - Does the proposed "sunken chill out / fire pit" in the rear of the property have a roof? Ensure it complies with Sec. 66-251 (250 sq. ft. max roofed area).
  - Provide notations for the proposed driveway material.
  - Provide notations for the proposed front wall / driveway gate (height, material, etc.). Ensure that it complies with Sec. 66-186.
- The elevator and elevator vestibule on the roof may be no more than 5' x 10' maximum per Sec. 66-261(b)(5).
- The page titles on the elevations are cut-off.
- Provide dimensions on the elevations for all projections into the setbacks. Several of the proposed architectural features are not permitted to encroach into the setback. The Code only allows for eyebrow and roof eaves (see definitions in Sec. 66-141).
- Provide an illustration indicating the minimum 35% pervious area is met (Sec. 58-35)
- Per the Town's Comprehensive Plan, the storm-water drainage calculations must show compliance with the LOS of a one day storm statistically occurring once in 10 years; the calculations provided are for a 5 year / 24 hour storm. Revise the calculations.

- Color renderings of all 4 sides of the structure will be needed for the BRAB meeting; MMPA only received front and rear renderings.
- A site plan showing construction site personnel parking was not received by MMPA.
- More comments are possible once plans are resubmitted.

TOWN OF GOLDEN BEACH  
BUILDING REGULATION ADVISORY BOARD  
APPLICATION FOR  
PETITION FOR VARIANCE

Date: NOVEMBER 14, 2016

Fee: \_\_\_\_\_

I, \_\_\_\_\_ hereby petition the Town of Golden Beach for a variance from the terms of the Town of Golden Beach Code of Ordinances affecting property located at: 2555 OCEAN BOULEVARD Folio No. 19-1235-003-0250

As specified in the attached "Application for Building Regulation Advisory Board" and related supporting material.

1. The Variance requested is for relief from the provisions of (list section number(s) of the Town of Golden Beach Code of Ordinances):

SECTION 66-101a : GROUND FLOOR ELEVATION  
SECTION 66-102a : FINISH GRADE ELEVATION

2. In order to recommend the granting of the variance, it must meet all the following criteria (please provide a response to each item):

a. The Variance is in fact a Variance from a zoning regulation as set forth within the Zoning Chapter of the Town Code. SEC 66-102a REQUIRES EXCAVATION OF SOIL ON THE PROPERTY TO MEET ALLOWABLE PARAMETERS AS SET FORTH BY THE CODE.

b. Special conditions and circumstances exist which are peculiar to the land or structure involved, and which are not applicable to other lands or structures in the same district. PROPERTIES EAST OF THE CLL CANNOT REMOVE EXCAVATED MATERIAL FROM THE PROPERTY. EXISTING GRADE IS HIGHER THAN ALLOWED BY CODE (SEC 66-102a) REFER TO FL STATUTE FL RULE 12B33.005(4)

c. The special conditions and circumstances do not result from the actions of the applicant. EXISTING GRADES ARE HIGHER THAN ALLOWED BY CODE. THIS IS A PRE-EXISTING CONDITION OF THE SITE.

d. Granting the Variance requested will not confer on the applicant any special privilege that is denied by the Zoning Chapter of the Town Code to other lands or structures in the same district. OTHER PROPERTIES (555 & 535 OCEAN BLVD) HAVE BEEN GRANTED A VARIANCE BY TOWN COUNCIL FOR THIS SIMILAR ISSUE.

TOWN OF GOLDEN BEACH  
 BUILDING REGULATION ADVISORY BOARD  
 PETITION FOR VARIANCE

3. Literal interpretations of the provisions of the Zoning Chapter of the Town Code would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of zoning regulations and would work unnecessary and undue hardship on the applicant. FL RULE 12B33.005(6) PREVENTS EXCAVATED MATERIAL FROM BEING REMOVED FROM THE PROPERTY. THIS EXCAVATION IS REQUIRED PER GOLDEN BEACH CODE SEC 66 102a
4. The Variance granted is the minimum Variance that will make possible the reasonable use of the land or structure. WE ARE RESPECTFULLY ASKING TO MAINTAIN THE EXISTING GRADE ELEVATIONS ON THE PROPERTY AND DO NOT SEEK ANY ADDITIONAL HEIGHT IN GRADE.
5. The granting of the Variance will be in harmony with the general intent and purpose of the Town Code and the Variance will not be injurious to the area involved or otherwise detrimental to the public welfare. VARIANCES ARE TO MAINTAIN EXISTING GRADE ELEVATIONS ON THE PROPERTY.

Does the Variance being requested comply with all the above listed criteria?  
 Yes     No

6. Our code states that submission of a written statement is invited and encouraged. Has the applicant (petitioner) explained the variance to the owners of the nearest adjacent residences and sought their approval in writing?  Yes  No. APPLICANT OWNS THE ADJACENT NORTH PROPERTY (263 OCEAN BLVD)  
 Please attach any written letters of no objection to this petition.
7. Is this request related to new construction?  Yes  No
8. Is construction in progress? NO
9. Is this request as a result of a code violation? NO
10. Did this condition exist at the time property was acquired?  Yes  No
11. Is this request sought as a remedy to a case to be heard, or action taken by the Special Magistrate? NO
12. Do you have a building permit?  Yes  No  
 Building Permit No. \_\_\_\_\_ Date issued: \_\_\_\_\_

*Single Family Residence (255 Ocean Boulevard)* is located within Township 51, Range 42, Section 35 in Golden Beach, FL 33160. According to the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map #12086C0153L, this project lies within Flood Zone AE (EL: 8'). The proposed project site encompasses approximately 0.51 acres. The existing lot is completely vacant with the single one-story C.B.S. structure and several large mature trees. Future development is proposing to demolish the existing structure and build a multi-story residential home with several water feature and including a subsurface pool and an associated elevated pool deck. The main residential structure will have a finished floor elevation of 13.50' NGVD while the multi-vehicular garage will have a finished floor elevation of 12.17' NGVD. Offsite improvements will include the reconstruction of the existing driveway and the associated curb; and miscellaneous landscaping within the right-of-way.

**PROPOSED DRAINAGE MODIFICATIONS:**

The proposed drainage calculations indicate that the proposed landscape swales are capable of retaining the stormwater runoff volume generated by the required 5yr 24hr storm event. Rain water discharge produced by roof top areas will flow onto the designed splash blocks and will self percolate into the groundwater table. The proposed onsite grading allows all on-site runoff to flow into the several proposed drainage swales. Proposed grading is designed to inhibit any offsite discharge.

**SITE DATA INFORMATION**

	sq. ft.	ac.	%	Proposed Elevations	
				Highest	Lowest
Total Area	22,200.49	0.51	100.0%	13.00	9.50

Pervious Areas (landscape, swales etc....):	10,125.67	0.23	45.6%	13.00	9.50
Impervious Area (sidewalk, driveways, etc....):	1,003.90	0.02	4.5%	13.00	10.23

**GROUND STORAGE CALCULATIONS**

**Depth to Water Table**

Average Developed Elevation:	Elevation (ft.)
Average Water Table Elevation:	11.25
Average Depth to Water Table:	2.07
	9.18

**Developed Available Storage**

Soil type: Coastal

Depth to Water Table (ft.)	Comp. Avail. Storage (in.)	Comp. CN Value
1.0	0.45	96
2.0	1.88	84
3.0	4.95	71
4.0	8.18	60

**Available Soil Storage**

Because the average grade after development will place the water table > 9.18' below the surface, the developed available storage for this site is taken to be 8.18 inches

Calculated soil storage:

$$\text{Soil Storage (S)} = \left( \frac{\text{Pervious Area}}{\text{Total Area}} \right) \times \text{Developed available storage}$$

(S) = 45.6% 8.18 inches

(S) = 3.73 inches

**Rainfall Data (P):**

A- 5 year 24hr storm event:	3.30 inches
B- 25 year 72hr storm event:	13.00 inches
C- 100 year 72ht storm event:	16.00 inches

## Calculated Runoff

Estimated stormwater runoff (Q) generated by the specified rainfall event (P) for a given site with a weighted soil moisture storage value for maximum retention parameter (S).

$$Q = \frac{(P - 0.2S)^2}{(P + 0.8S)}$$

where:

Q = direct runoff (inches)

P = rainfall (inches)

S = soil storage (inches) as determined based on soil type and depth to water table.

(Q <sub>5</sub> ) =	1.04 inches
(Q <sub>25</sub> ) =	9.39 inches
(Q <sub>100</sub> ) =	12.26 inches

## VOLUME OF RUNOFF (V)

Volumes of runoff generated during a specified storm (V)

$$\text{Runoff Volume (V)} = \frac{(\text{Total Area}) \times (Q)}{12}$$

(V <sub>5</sub> ) =	.044 ac-ft	1,920 CF
(V <sub>25</sub> ) =	.399 ac-ft	17,379 CF
(V <sub>100</sub> ) =	.521 ac-ft	22,674 CF

## STORAGE PROVIDED

Surface volume storage developed by the proposed landscape swale area is calculated by:

$$\text{Swale storage volume (V)} = (\text{Top Area} + \text{Btm. Area}) \times \text{Height}$$

Swale	Top Area (SF)	Bottom Area (SF)	Average Area (SF)	Height (FT)	Volume (CF)
SW-1	3,529.27	28.75	1,779.01	0.92	1,627.79
SW-2	3,875.77	31.90	1,953.84	0.92	1,787.76
SW-3			0.00		0.00
Total Swale Areas =					<b>3,415.55</b>

Volume of storage provided by the proposed swale areas= **3,415.55cf.**

Required volume to be treated by proposed Exfiltration Trench = **1,919.88**      **-3,415.55** = **-1,495.67cf.**  
 = **-0.034 ac-ft.**

## CONCLUSION

The above drainage calculations indicate that the project site has the capability of retaining the 7.5-inches produced by the 5yr/24hr storm event as required by the City of Miami Beach. The accumulated volume developed by the multiple landscape swales placed throughout the project site exceeds the stormwater runoff volume generated by the specified storm event. As a result, it will not be necessary to design any additional subsurface drainage system.

---

**Date:** January 5, 2017  
**To:** Alexander Diaz, Town Manager  
**From:** Yovany Diaz, L  
**Ref:** Resolution to Dispose the Polaris Ranger 570

---

### **Background/History:**

2014 Polaris Ranger 570 Serial#4XARH57AXEE230559. The Polaris was used by the Police Department between 2014 to 2016. The Unit is not cost effective as the parts and repairs are more than the value of the Equipment.

### **Financial Impact:**

The value of the Polaris Ranger is zero due to the condition, mechanical and inoperable conditions. We tried to sell it by surplus and it did not sell.

### **Recommendations:**

The Staff request authorization to dispose the above mentioned Polaris.

**Subject:** **Resolution No. 2480.17 - Approving the Use of LETF Monies to purchase community relations equipment for the police department.**

Item Number:

6

---

### **Recommendation:**

It is recommended that the Town Council adopt the attached Resolution No. 2480.17 as presented.

### **Background:**

Our Police Department takes a proactive approach with community relations programs. It focuses on issues of mutual interest to the general public and the police department. Police Department sponsored programs are usually associated with the interaction between police officers and residents, community leaders, news media, and businesses. This commitment to community relations promotes a partnership that has brought the police department and its officers in close communication with our community. The purchase of an aluminum tent and accessories will be useful in setting up displays for events such as the First Day of School, Halloween, Bicycle Safety, etc.

I and the Mayor, recommend the Town Council approve the new agreement.

### **Fiscal Impact:**

The cost to purchase the listed items will come from the Law Enforcement Trust Fund.

**A RESOLUTION OF THE TOWN COUNCIL OF THE TOWN OF GOLDEN BEACH, FLORIDA, AUTHORIZING THE USE OF LAW ENFORCEMENT TRUST FUND (“LETF”) MONIES TO PROVIDE FOR THE POLICE TO PURCHASE A COLOR TENT, TABLE CLOTHS AND COLOR WIND FLAG FOR POLICE COMMUNITY RELATIONS; PROVIDING FOR IMPLEMENTATION; AND PROVIDING FOR AN EFFECTIVE DATE.**

**WHEREAS**, the Town desires to purchase one 10x10 color tent with commercial grade aluminum frame and a black background; one carrying case; two 6 foot table cloths with black background and one 12’ full color wind flag, in order to continue to provide the necessary community relations services to the residents of Golden Beach, and

**WHEREAS**, the costs to the Town to purchase one 10x10 color tent with commercial grade aluminum frame and a black background; one carrying case; two- 6 foot table cloths with black background and one 12’ full color wind flag is projected to be \$1,500.00; and

**WHEREAS**, the Town’s Law Enforcement Trust Fund account (the “LETF”) includes assets forfeited to the Town by authority of the Florida Contraband Forfeiture Act and by the Federal Asset Forfeiture Statutes; and

**WHEREAS**, the Town Council desires to utilize LETF funds to pay for one 10x10 color tent with commercial grade aluminum frame; one carrying case; two- 6 foot table cloths and one 12’ full color wind flag and

**WHEREAS**, the monies contained in the LETF are the result of seized assets from both investigations by the Town’s Police Department and joint investigations with other law enforcement agencies – not from tax revenue; and

**WHEREAS**, the Chief of Police has recommended that the \$1,500.00 cost be taken from the Town's LETF for "***other law enforcement purposes***" specifically authorized by law; and

**WHEREAS**, the Chief of Police certifies that this expenditure complies with § 932.7055, Florida Statutes, and / or the Federal Seizure statutes in that the funds will be used for an appropriate law enforcement purpose; and

**WHEREAS**, the Chief of Police certifies that the Town's LETF is not being used as a normal source of revenue for the Town Police Department; and

**WHEREAS**, the Chief of Police certifies that the Town's LETF was not considered in the adoption and approval of the Police Department budget; and

**WHEREAS**, the Town Council finds that it is in the best interest of the Town to proceed as indicated in this Resolution.

**NOW, THEREFORE, BE IT RESOLVED BY THE TOWN COUNCIL OF THE TOWN OF GOLDEN BEACH, FLORIDA, AS FOLLOWS:**

**Section 1. Recitals Adopted.** That each of the above-stated recitals is hereby adopted and confirmed.

**Section 2. **Subject:** **Resolution No. 2481.17 – Authorizing a One-Time Pay Increase to All Police Officers and Supervisors**

Item Number:

7

---

### **Recommendation:**

It is recommended that the Town Council adopt the attached Resolution No. 2481.17 as presented.

### **Background:**

On October of 2016 the Town's Police Department was re-accredited. The accreditation program has long been recognized as a means of maintaining the highest standards of professionalism. Accreditation is the certification by an independent reviewing authority that an entity has met specific requirements and prescribed standards. Law enforcement agencies can attain accredited status through the Commission for Florida Law Enforcement Accreditation, Inc.

The accreditation process calls for enhanced training, prescribed rules and Operating Procedures and a standardization in the manner in which we carry-out Law Enforcement responsibilities.

I am recommending a one-time bonus of \$300.00.

**Subject:** Resolution No. 2482.17 – Authorizing the a change to the top out pay for all police officers and supervisors and reclassifying some bonuses

---

### **Recommendation:**

It is recommended that the Town Council adopt the attached Resolution No. 2482.17 as presented.

### **Background:**

The current contract with the Fraternal Order of Police has a re-opener as it relates to the “top-out” pay of our Police Officers and Supervisors. Late last year, the union and I met to discuss the possibility of increasing the top pay of our Police Officers from \$67,000 to \$75,000. We ultimately agreed to a new “top-out” pay of \$72,500. We also will be re-classifying the bonuses tied to “top-out” pay from bonus pay to increase in salary for the 2016 tax year.

### **Fiscal Impact:**

None- the re-classification was previously paid out.

[RESOLUTION TO FOLLOW]

**MEMORANDUM OF UNDERSTANDING BETWEEN  
THE TOWN OF GOLDEN BEACH, FLORIDA AND THE FLORIDA STATE LODGE,  
FRATERNAL ORDER OF POLICE**

This Memorandum of Understanding is entered into this \_\_\_\_\_ day of January, 2017 by and between the Town of Golden Beach, Florida (“Town”) and the Florida State Lodge, Fraternal Order of Police (“Union”). The Town and the Union are collectively referred to as the “Parties.”

**WHEREAS**, the Parties entered into a Collective Bargaining Agreement for the period of October 1, 2014 to September 30, 2017 (“CBA”), which sets forth the terms and conditions of employment for the Town’s police officers and sergeants;

**WHEREAS**, Article 12, Addendum A, Salary & Wages, of the CBA, which contains the Parties’ agreement with respect to police officers’ base salary, provides that those employees with a base salary frozen at \$67,000 will receive a \$750 bonus on October 1, 2016;

**WHEREAS**, Article 12, Addendum A, Salary & Wages, of the CBA which contains the Parties’ agreement with respect to capped out sergeants, provides that these sergeants will receive \$750.00 bonus on October 1, 2016;

**WHEREAS**, the Parties wish to clarify Article 12, Addendum A, of the CBA such that the bonuses received by police officers and capped out sergeants will be considered pensionable compensation for services rendered;

**WHEREAS**, the Parties wish to modify Article 12, Addendum A, of the CBA to increase the base salary of capped out police officers, effective January 1, 2017; and

**WHEREAS**, the Parties recognize that this Memorandum of Understanding only modifies Article 12, Addendum A, of the CBA and does not modify any other Article contained in the CBA, and that this Memorandum of Understanding will not be used in any way by either Party to constitute or be considered a past practice.

**NOW, THEREFORE**, the Parties agree as follows:

1. The above recitals are true and correct and incorporated herein by reference.
2. Article 12, Addendum A. Salary & Wages is amended as follows:<sup>1</sup>

Effective October 1, 2014 employees at \$66,203.00 will receive an increase of \$750.00 to their base salary in year one bringing their salary to \$66,953.00. On October 1, 2015 those employees will receive an additional \$47.00 adjustment to their base salary (capping their base salary at \$67,000.00) and a one time bonus of \$703.00. On October 1, 2016, those employees at \$67,000.00 will receive a \$750.00 increase which shall be
