

## Fire Hazards: Emergency Electrical Repairs

**Residents must be proactive about the safety of their own properties.** South Florida's heat and salt air can cause premature wear and deterioration of outdoor electrical components and their connections. Compromised electrical equipment can lead to fires.

Outdoor outlets, meter boxes, grounding, conduits, landscape lighting and pool equipment are among areas that can pose as fire hazards if not properly maintained.

**Inspect your property regularly. Do not risk a dangerous or expensive situation.**

Should you be unsure of the safety of any of your outdoor electrical configurations, the Town can inspect the integrity of those components at no cost to you.

**Should you need to make an emergency electrical repair contact the Town's Building & Zoning Department immediately.** The Building Department will expedite all permits and there be NO FEES for such repairs. Please note, this policy applies only to repairs, not to upgrades or new service.
