**RE: Town of Golden Beach - Tweddle Park Stormwater Outfall Fittings Replacement
PRICE PROPOSAL RECOMMENDATION
CAS PROJECT NO. 16-0944-STMWTR**

Dear Mr. Diaz:

As we worked towards a solution to address the lost discharge capacity of the existing drainage wells at Tweddle Park and in order to ensure we have obtained competitive pricing, Craig A. Smith & Associates (CAS) requested and received three (3) price proposals from qualified contractors that can perform the requested work. The work entails the replacement of existing fittings near 147 Golden Beach Drive with new fittings to improve the hydraulics of the existing stormwater gravity outfall and includes the adjustment of the manhole opposite of this location with a new top slab with sealed lids (see sketch below for work location) to keep lids from surcharging.

Price proposals were received from the following contractors.

1. Southeastern Engineering Contractors (SEC): \$78,500.00.
2. Shenandoah: \$148,220.00.
3. David Mancini & Sons, Inc.: \$100,000.00.

SEC's price is much lower than other proposers and this could be attributed to the fact that they are currently mobilized and constructing the Center Island Pump Station project having forces already in place to perform the work. SEC is quite familiar with the Town's infrastructure as they were the successful bidder awarded the Town's capital improvement project around 2010 consisting of road work, drainage systems, potable water systems, completion of an existing stormwater pumping station (North Park) and the full construction of the South Park Pump Station (both stations designed and permitted by CAS).

Based on our review, SEC has the lowest and most responsive-responsible price proposal and CAS hereby recommends the award for \$78,500.00 to SEC based on the price and previous track record.
