MEMORANDUM

Date: June 14, 2022

Item Number:

To: Honorable Mayor Glenn Singer &
Town Council Members

1

From: Alexander Diaz,
Town Manger

Subject: Ordinance No. 600.22 – Amending the Town’s Code, Article IV
of Chapter 46 As It Relates to Seawalls.

Recommendation:

It is recommended that the Town Council adopt the attached Ordinance No. 600.22 as presented.

Background:

This is the second reading of this Ordinance, it will set the top of cap for all seawalls in Town at 4.425’ NAVD (6’ NGVD) creating a standard cap height throughout Town. For years property owners have been given a choice in seawall cap heights, and what we have found is that when given a choice, most applicants would simply build to the minimum requirements.

In addressing the disparity between seawall cap heights, we create a more resilient armoring along the waterways.

It also defines substantial improvement for the purpose of Sec. 46-85, substantial improvement shall mean any repair, reconstruction, rehabilitation, alteration or other improvement to a seawall that collectively and cumulatively effects more than twenty-five percent (25%) of the linear dimensions of the seawall.

It also allows for existing homes that are not making substantial improvements to keep existing heights.

The City of Miami Beach has recently set the minimum top of cap for most of their seawalls at 5.70’ NAVD, our team of advisors and the Administration are confident that 4.425’ NAVD for the Town is appropriate.

Fiscal Impact:

None.
