

SPECIAL PROJECT UPDATES

Civic Center Building

The project is scheduled to be fully enclosed within the next couple weeks. Currently, the windows and exterior doors are being installed at the same time stucco work is being completed. Once windows are all in place, the project will go through a series of inspections to start up the mechanical & electrical systems. The elevators are scheduled to be installed in early January. By the end of January, installations for all the interior finishes and specialty equipment will commence.

Fiber Optic Technology

The majority of residents have been connected to the hotwire network. If you have not scheduled your consultation or have any questions, call the Golden Beach dedicated launch team specialist, Jessica at (954) 405-2329. Currently, Hotwire is working on the installation of the security camera takeover & WiFi networks throughout our nine parks.

Wall on Massini

The wall has been painted, planting and the irrigation system has been installed. We are making final installations for security and looking into different options for lighting. Currently, we are giving the gate at A1A and updated look to match the wall. The town is also performing a restoration to Massini View Park as it was damaged during construction.

Town-wide Security Upgrade

The town council recently approved the proposal provided by Hotwire for the town-wide security update. We are in the beginning stages of drafting the contracts with our legal team.

Miami-Dade Water & Sewer Force Main Replacement on Golden Beach Drive

The project has been under DERM review for the past several months. Our last update from Miami-Dade

By Lissett Rovira

indicated that the force main project received approval in November 2022 and construction will begin in June of 2023.

Roads and Streets

South Island has experienced an elevated level of flooding during the latest king tide and storm events. Since the island relies on gravity alone to drain storm water, over time, the water has compromised the base at the intersection. Currently, as we mill and resurface the island, the intersection will

receive a base restoration and increase in elevation so that water will flow to the inlets. We have continued the use of the portable pumps to ensure water is not left standing.

A part of the Ocean Blvd. beautification project includes the sandblasting of all curbs and gutters. The work is well underway. All curbs and gutters along the east and west sides of the roadway are complete. The crew is scheduled to complete the medians just before the holidays. Simultaneously, all the street light bulbs on Ocean have been replaced and poles are currently being painted.

Beach Pavilion

The town recently completed several maintenance activities at the beach pavilion including drainage improvements, painting the pavilion, electrical repairs, and the restoration of the beach access driveway. The northern parkway will also receive beautiful new landscaping to be installed before the holidays.

Re-imagined Tweddle Park

In mid-October, the town hosted a workshop event where residents were given the opportunity to give their options on what is most important for them. It was an insightful and informative meeting that allow our design team to finalize the plan. At the November meeting, the council approved a site plan created by Martin Architectural Group. Currently, we are working with our project civil engineers to properly design the site topography to ensure we have dry courts and play areas.

LOOKING BACK AT 2022

A few parting shots as we turn the page on the new year...

Political Signage

The Town is reminding residents that political/election signage is not permitted within Town. Per the Code of Ordinances, section 66-276, which states *"No signs shall be permitted to be erected, affixed or placed, on public property, marks, streets, alleys, ways, swales; or other locations or structures on private property within the Town."* Should you have any questions, please contact Code Enforcement at Town Hall.

Keep our Streets Accessible

Whether you're hosting visitors or parking your own vehicles the Town asks residents to utilize driveway parking before having vehicles park in the street. Clear streets ease traffic, improve visibility and enhance the overall aesthetic of Town.

Keep in Mind:

Lawn clippings can clog storm drains.
Be sure to dispose of lawn clippings properly.
