**Date:** June 15, 2021

Item Number:

**To:** Honorable Mayor Glenn Singer &  
Town Council Members

**From:** Alexander Diaz, *Alex B*  
Town Manager

**Subject:** Resolution No. 2745.21 – Approving proposal from Mainguy  
for the bus shelters project

---

### **Recommendation:**

It is recommended that the Town Council adopt the attached Resolution No. 2745.21 as presented.

### **Background:**

The Town will be installing bus shelters at two locations along A-1-A. The Administration is serving as the Project Manager for the installation and has contracted directly with the various sub-contractors to deliver this project.

We have contracted with South Eastern Engineering for shelter installation, Biscayne Iron Works for fencing, direct purchase of the bus shelters with Landscape Forms, and we are seeking your approval for the landscaping and irrigation preparation.

The proposal from Mainguy includes the removal of existing vegetation and invasive species to accommodate the installation of new bus shelters on Ravenna and Palermo Avenues off Ocean Blvd. They will be responsible for removing the existing chain link fencing along with the installation of a new irrigation system to support the proposed landscaping. Permitting for the scope of work has been approved by DERM and the project is ready for mobilization.

### **Fiscal Impact:**

The cost for the Palermo Avenue location is \$12,306 and the Ravenna location is \$25,890 for a total of \$38,196.

The funds for this project have been allocated from previous year's transit dollars and funded in the Towns Capital Projects Budget.
