These spaces include multiple levels of interest for different age groups, a group training studio for aerobics, yoga and meditation. The goal for the Wellness Center is to serve as gateway to overall wellbeing and quality of life. In the post-COVID era, we have discovered the importance of social engagement and how it affects mental and physical health. The building shall be Class A construction with high end finishes. Special attention should be made to the orientation of the building on the site alongside the park amenities and existing conditions. Current Conditions:

The project site is located adjacent to an existing 'annex' building and recreational amenities (exhibit A). Refer to the site survey (exhibit B) for coordination with existing utilities, i.e. sewer force main.

A selection will be made of a responsible proposer whose proposal is determined to be the most advantageous to the Town, taking into consideration the following evaluation factors: references; experience of the proposers business as it relates to Architectural and Engineering services, cost and design.

Submissions must include a proposed site plan, preliminary floor plans, and a 3D sketch or rendering. The package must include a bid proposal for the architectural and engineering construction.
