I. TOWN MANAGER REPORT

We are actively monitoring current international events and taking the necessary steps to keeping our residents safe. I want to ask the residents to 1. Don't feed into the hysteria and the misinformation that's typically not vetted and put out to the community; and 2. Don't think that if we don't share with you what we are doing, that means that we're doing nothing. We will put necessary dollars and resources towards keeping our community safe. Congratulations to the chief for having a successful mock accreditation assessment. The summer is here; we're buying tons of amenities to add to your beach for a fun summer; on July 4th we will have the kosher hot dog cart at the beach; we are wrapping up pruning and storm readiness of landscaping.

Town Manager On July 1st, we'll get the final number and we will manipulate the millage number so that we have a combined millage rate of no more than 8.4 mills. Because of the new growth in revenue, the mayor has tasked me to make sure we set aside \$700,000 of that new money that we will not touch as part of our spending plan.

Town Manager The new auditing firm was the best move, piggybacking off a contract to bring in a new auditing firm. I want to thank former Councilmember Mendal for

pushing us. We found our pension is very healthy; we found that our accounting software was outdated and needed to be replaced. It also found that our internal controls are second to none; we have one of the strictest internal controls. It affirmed that we are financially strong; we have \$6.1 million in reserves. We have set aside \$710,513 for the Building department; \$460,000 for unforeseen pension obligations in the future; \$235,000 in case our health insurance costs go through the roof; \$500,000 in this year's budget for capital projects; leaving \$1.7 million unassigned in our fund balance.

Town Manager The council has already authorized the new signage and monument markers on A1A. I asked four companies that we typically work with to give me a price based on dimensions and based on scope of work. I'm trying to avoid the long and tedious permitting requirements of FDOT. The approach I am taking is that all of our monument locations, we have existing markers that we're going to be doing maintenance on. This includes the fountains at the Strand, at north and south side and signage at the pavilion and all the new monument markers throughout the community. It does not include the guardhouse. During the summer, we will take a hard look at the guardhouse. We will need a full set of plans and I want to make sure when we finalize the design for the guardhouse, it's the right design. This number is well less than what

we had budgeted. With the savings of this project, we're able to provide the bocce court and putting green.
